PAGODA RED

BAMBOO CLOUD GARDEN SEAT

\$680

Jiangxi, China • Ceramic • Collection #BJEE005 W: 16.5" H: 20.0"

Garden seats were once fixtures in Qing Dynasty gardens; the perfect place to rest feet while meandering along a garden path and also very flexible to use as a table for tea. This six sided example handmade with the texture of bamboo was made in China's Jiangxi's Province. It works perfectly any setting--modern or traditional, indoors or out.
