CELESTIAL DRAGON BI DISC

\$980

Hebei, China • Jade, Steel • Collection #BJEE047C

H: 14.0" Dia: 11.75"

Bi discs have been found in the tombs of ancient Chinese emperors and aristocrats, but their true meaning is still not clear. Usually they are associated with heaven and, at times, thought to be conduits for communication with ancestors. This hardstone bi disc was finely carved with abstract dragons and clouds, symbolizing heavenly power. Mounted on a custom steel stand, this bi disc is a captivating sculptural object and the perfect home accent.
