COLORFUL STONE

\$488

Jiangsu, China • Stone • Collection #PM5018

W: 10.0" D: 8.0" H: 15.0"

Unearthed in Jiangsu province, this gorgeous stone has been polished to reveal the full array of its soft colors and intriguing patterns. Prized by collectors for centuries, such stones were especially sought after by Chinese scholars who plumbed their mysteries in search of universal truths and poetic inspiration. This stone is a wonderful sculptural accent, awash with swirling currents of red, yellow, and milky white, and speckled with flecks of inky black.
