CRUSHED BAMBOO PEDESTAL

\$1,980

Northern China, China • Bamboo • Collection #CAF175

W: 24.0" D: 24.0" H: 30.0"

It's difficult to distinguish this spare pedestal from a modern Parson's side table. Both exhibit clean lines and a great silhouette. Crushed bamboo brings subtle texture to the minimalist design, and the dark lacquer brings out its sculptural geometry. A staple of Chinese furniture since the Song dynasty, bamboo was valued for its physical properties as much as its rich symbolism, representing humility as well as strength and endurance. Just like Chinese homeowners have for centuries, we love bamboo's organic presence, lightness, and versatility.
