

FLORAL ETCHED MELON SHAPE LIMESTONE DRUM

\$2,880

c. 1900 • Shanxi, China • Limestone • Collection #BJEE198B

H: 12.0" Dia: 12.0"

This drum form was hand-carved from a solid piece of limestone in China's Shanxi Province. Its melon shape is an ancient Chinese symbol of fertility and is incised with flowers and leaves. We love it juxtaposed as a table with a mid-century seat, or as a stool in a grove of trees as the ultimate place to ponder.
