FINE IRONWOOD CABINET

\$16,800

c. 1850 • Beijing, China • Ironwood • Collection #Y106

W: 67.0" D: 25.25" H: 71.0"

This very fine 19th-century cabinet from northern China is made of ironwood. Iron wood, known in Mandarin as tiěli and prized by collectors, comes from the tallest Chinese hardwood tree and is very durable with a coarse texture and distinctive open grain. This substantial cabinet projects quiet harmony and balanced tension among its austere construction, rich timber, and thoughtfully placed handmade white brass hardware. Bifold doors make the entire cabinet accessible if needed.
