GUATEMALAN CARVED COLUMN

\$980

Central America • Wood • Collection #CAA0900B

H: 42.0" Dia: 13.0"

The Maya peoples of Guatemala created incredible works of art through columnar woodworking and stone shaping. The geometric vertical carvings provide a low field that flourishes into the foliated top half. As the vines crawl upward and become leaves reaching for the sun, the eye is drawn across the organic variations in the nut-brown wood. The hand of the craftsman is starkly apparent in this soulful sculptural object.
