## LINGBI STONE

**\$4,880**

Shanxi, China • Limestone • Collection #ZZZ101H

W: 12.5" D: 10.5" H: 19.25"

Prized for their unique formations, scholars' stones have been valued as sculptural objects of contemplation for hundreds of years. Wonderfully suggestive in form, the stones are open to thoughtful interpretation or simply enjoyed as abstract sculpture. The finely grained and delicately textured limestone of this stone is known as Lingbi. Like every great scholar's rock, this stone is beautifully balanced and complemented by its minimalist modern metal mount.
