MELON FORM STONE DRUM

\$3,880

Shanxi, China • Limestone • Collection #BJFF170A

H: 17.75" Dia: 16.0"

Hand carved from limestone, this drum-shaped stool swells a ribbed melon shape, an ancient symbol of fertility. A smooth top with bamboo-like trim juxtaposes nicely with the drum's organic grain and markings, while providing a level surface. We love it as a side table or as a stool in a grove of trees as the ultimate place to ponder.
