MILL STONE

\$2,180

c. 1900 • Hebei, China • Limestone • Collection #BJFF169J

H: 20.0" Dia: 11.75"

With its textured and ribbed surface this hand-carved stone once ground grain and nuts at a Hebei province wind- or watermill. Over a hundred years old, the stone's surface has worn down through use, leaving only a hint of its original texture. A polished top adds contrast and provides a smooth surface for a potted plant in quiet corner of the garden.
