MINIATURE COLUMN BASE

\$628

c. 1900 • Beijing, China • Stone • Collection #BJG020B

H: 3.25" Dia: 5.5"

This miniature early 20th-century stone pedestal takes its shape from the architectural stone bases used to support large wooden columns in a traditional courtyard. Hand-carved from blue stone, the pedestal is designed to resemble a drum, with carved boss nail heads ringing the top and bottom. It is beautiful as is and also ideal for displaying a petite decorative object.

Available to ship April 22, 2019. Item will be on display through the New York Botanical Garden Furniture & Antiques Fair 2019.
