United States • Metal, Glass • Collection #CJB003P

H: 0.25" Dia: 2.0"

In this one-of-a-kind necklace, one of the most ethereal features of the natural world has been preserved for all time under glass. This genuine spiral orb spider web has been sprayed with a fine metallic coating, and mounted on a black background, which is protected by beveled glass. The artwork is truly special and entirely unique, as each time a spider creates a web it can never be precisely duplicated.
