PROVINCIAL FARMHOUSE RAKE

\$480

c. 1900 • Northern China, China • Cypress • Collection #BJGG007

W: 13.5" D: 4.5" H: 79.5"

Crafted over a century ago in China's Shanxi province, this provincial rake was hand-carved from the forking bough of an cypress tree. Originally used for lifting hay on a Qing-dynasty farm in rural China, we've re-imagined the rake as a sculptural object, adding irregular form and textural contrast to the modern home.
