PETITE TWO DOOR WEDDING CABINET MAQUETTE

\$980

c. 1850 • Shanxi, China • Northern Elmwood • Collection #SSS050

W: 14.0" D: 10.5" H: 19.0"

Made of northern Elmwood, this petite 19th-century two-door cabinet was likely created as a carpenter's sample to show how joinery and timbers come together in a traditional Chinese wedding dowry cabinet. The original brass plate that would have been a poignette center has been replaced by two simple handmade brass pulls some time during its 200 year life. A wonderful charm, the cabinet might also be useful as jewelry or keepsake box.
