TWO DOOR CABINET

\$5,800

c. 1800 • Northern China, China • Chicken Wingwood • Collection #CB175

W: 35.25" D: 17.5" H: 56.0"

The Qing-dynasty artisan who made this two door cabinet was a master of his craft, using mortise and tenon joinery techniques to construct this piece without using a single nail or screw. The beauty of this cabinet is not only its highly polished wood or precisely carved apron, but in the complex joinery just beneath the surface.
